## A report to the community

**Eric Deaton, CEO**  
*Danville Regional  
Medical Center*

**At Danville Regional Medical Center**, our goal is to deliver the best healthcare available to the residents of the greater Dan River Region as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your continued support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is one of the most important contributions we make. In 2011, we

announced our expanded relationship with Duke University Health System, formalizing a comprehensive hospital patient safety and quality affiliation. In addition to our commitment to quality, there are many other ways we make a positive impact on the communities we serve. Here are a few of the ways we are making a difference.

### **Nearly \$3.4 million in capital improvements**

In 2011, we opened four new physician clinics: Family Healthcare Center – Brosville, Southside Internal Medicine, Family Urgent Care Center and DRMC Family Medicine Residency Continuity Clinic. At the beginning of 2012, we opened Piedmont Psychiatric Associates and later in the year we will open another Family Healthcare Center in the Mount Hermon area to provide the community with even more access to primary care.

We have also added new equipment and made a number of quality improvements to our facility including patient beside monitors in our critical care unit, remote telemetry monitors, dash monitors in the emergency department and new fetal monitors for our women and children's floor. Also, our Step Down Unit has a new patient call system.

In fact, we invested nearly \$3.4 million in our facilities last year which, in addition to the above, included technology replacement, information technology additions/updates, and important facility upkeep and maintenance.

### **Contributing to our local tax base**

Last year, Danville Regional paid \$1,673,341 in taxes which helped support our city, county and state. This included sales taxes as well as property taxes. These dollars help maintain local schools, fund the development of roads, recruit business and industry, and provide other similar services vital to support and sustain a thriving economy.

### **Helping those in need**

Danville Regional is committed to ensuring the delivery of needed healthcare to all members of the community, regardless of ability to pay. Last year the cost to Danville Regional was nearly \$16 million to provide services for those without the ability to pay for their care.

### **Adding new physicians**

During the past year, Danville Regional Medical Center added 24 new physicians to provide care in family medicine, internal medicine, orthopedics, cardiology, cardiovascular & thoracic surgery, urology, ophthalmology, anesthesiology, emergency medicine and hospital medicine.

### **One of our community's major employers**

With an annual payroll of \$71,542,020 and 1,310 employees, Danville Regional is one of the largest employers in the region. This means that our staff and family members attend many of the same schools, shop at the same stores and volunteer their time and resources for the same organizations as you do.

We thank you for choosing us for your healthcare needs. With your support, we can continue helping our community become healthier.
